Esau Dysart, an old Keytesville colored boy, came in last week to visit his mother, Aunt Sarah Blanton—Dysart—B a l l

—Wheeler. Esau gained some reputation when a young man as a composer of bewitching letters and notes to the fair sex. Only one has been preserved by an old friend of Esau, who handed it to us. Here it is. "Comments of Esau Dysart to Miss Lucy Ann. I hope you won't have no injections to me digestin, you to the festibule tonight. Yours in lier, Esau."

Norbert Clavin a staunch friend of the Courier is a duck and goose raiser. He has had good luck raising them to "brilling" size, but before Norbert could get them roasted, they disappeared in pairs and by the dozen. He would have abandoned the business on this account had he not secured from a friend a big bull dog, specially trained to guard poultry against ravages by nocturnal prowlers, white, black and colored. For every missing duck Norbert expects the bull dog to get enough of cloth for a clue and for every goose, a gobbled up and spit out chicken thief.

Hon. Perry S. Rader Spoke

A small but select crowd enjoyed one of the best speeches at the court house last Friday night heard in this County this year, or for that matter among the best ever heard there, and we might go further and say ever heard anywhere else. No sore spots on our defeated candidate for supreme judge. It is regretted that the event was not more extensively advertised, and that so many other things going on in town interfered with filling the big court room.

Colored Oratory

Saturday night A. F. Jenkins, a colored stump speaker claiming to hail from St. Louis and out to edify his race on political subjects was given the use of the court house because he claimed to be stumping the state under direction of the State Democratic Committee. A fair sized crowd of white people and a sprinkling of about 40 colored inside and out, were on hand to hear something, and all were disappointed.

Jenkins didn't know what he was talking about himself, and won't be chagrined when he hears that none of his audience did.

However, Wilson and Major won, in spite of the State Committee.

Roads vs. Bridges

Perhaps no county in the state has made greater progress in the matter of general road improvement than ours in the past two years. There are very few neighborhoods in the county where the owners of farms have not shown pride enough as well as business perception to get the roads in better shape. It never could have been done out of the taxes it had to be done by volunteer work. There has been no corresponding improvement in the matter of bridges. Trot along smoothly over a pretty stretch of roads until you reach a culvert and all the pleasure is forgotten in figuring how to get over without breaking your neck or all the legs of your team. The good roads are against the bad bridges. So is everything else. The county court in session now

has petitions before it for more than the County could pay for out of the bridge fund in five years and yet leave nothing with which to keep others in repair. That something looking to a radical change in such conditions should be speedily resorted to, there can be no doubt or argument, and the Courier is going to figure it out and present for the consideration of its readers.

Walter Friesz came home Saturday from the state university and remained with homefolks until Wednesday. Walter has been deputed to ascertain the quantity of water flowing down the Chariton river each year, and to that end will establish a gauge either at the Hamner or Dawkins bridge, the only two points not affected by the new ditch.
